ABV REFRIGERATION BALL VALVE

APPLICATIONS

- ✧ Isolate suction, discharge, and liquid line pipework during maintenance shutdown periods

FEATURES

- ✧ Forged brass body
- ✧ Hermetic design
- ✧ Compatible with new refrigerants/lubricants
- ✧ Full internal ports through 2-1/8"
- ✧ Bi-directional flow characteristics
- ✧ Valve stem cap retained by strap attached to main body
- ✧ Integrated access port available on all sizes

SPECIFICATIONS

- ✧ Body: Forged Brass
- ✧ Extension Stubs: 100% Copper Connections 500 psig
- ✧ Maximum working pressure:
- ✧ Not for use with R-123
- ✧ Fluid temperature range: +300°F to -40°F
- ✧ UL File Number: SA 5312
- ✧ CSA File Number: LR 32462
